

【Bachelor's course】 Guideline for Course and Students' Learning Survey, Summer Quarter 2025

Mori Arinori Institute for Higher Education and Global Mobility,
Hitotsubashi University

Hitotsubashi University evaluates the Course and Students' Learning Survey for undergraduate courses. Please familiarize yourself with the procedure, which will follow the guidelines listed below.

- **Survey period :** **Mon., June 30, 2025 – Fri., August 8, 2025**
- **Courses covered by the survey :**
All undergraduate courses for summer quarter, spring -summer term and summer intensive courses .(Courses with just a few students can be excluded. (less than 20))
- **How to survey**
 - In the face-to-face class and live-streaming class, please at the end of the lesson, give students time to complete the questionnaire for about 10 minutes and encourage students to answer in manaba. Before you finish the class, make sure your students have completed their answers.
 - If your course is on-demand class, we will announce on the CELS bulletin board that students will complete the class survey. In-class instruction is not always necessary.
- **Courses with two or more instructors (Except for "PACE")**
The survey is carried out by course, one survey for one course. If the course is taught by two or more instructors, please contact with each other to ensure that the survey is conducted by one of them.
- **Answer submission**
The survey answers can be submitted only once and they cannot be changed once the survey has submitted. So, please be careful and with the timing if you want to add extra questions.
- **Designated questions by faculty, graduate school, and area**
There are four items that can be asked by faculty or area. Questions will be added to the questionnaire only if you contact the Mori Arinori Institute for Higher Education and Global Mobility in advance.
- **Additional questions by the instructor**
Instructors' personal questions also can be added Q11-Q14 or Q15-Q18. Questions can be presented by writing them on a blackboard, or distributed with a handout. Please note that these questions will not be shown on the survey results, so please keep them by yourself.
- **Comments**
A comment space is provided so that students can write any comments and opinions on the course, but the instructors can also indicate a specific theme on which they wish to receive feedback from the students. You may encourage students to write as many comments as possible.
